LEARNING CENTER

The Learning Center is divided into a number of sections containing step-by-step tutorials for users of MIX 2.0. The tutorials are available as PDF files and/or embedded YouTube videos in the following sections:

1. **Getting started**

This section contains tutorials on how to prepare a computer for MIX 2.0, and how to activate and use the software.

2. **Datasets**

This section contains tutorials on how to load, create, and edit datasets in MIX 2.0,

LEARNING CENTER

[Getting started](#)[Datasets](#)[Meta-analysis](#)[Reporting](#)[LEARNING CENTER top](#)

and how to convert data into the correct format.

3. **Meta-analysis**

This section contains tutorials on how to perform various types of meta-analysis in MIX 2.0, and how to create and edit graphs.

4. **Reporting**

This section contains tutorials on how to create reports with MIX 2.0, and how to present results in PowerPoint and other file formats.
