## Excel-Based Tools for Educators

EZAnalyze provides free, Excel-based tools designed to enhance the data-driven work educators engage in. While Professional School Counselors are the target audience for EZAnalyze products, professionals and students in other disciplines also find these tools useful.

### EZAnalyze

EZAnalyze is a Microsoft Excel Add-In designed to enhance the capabilities of Excel by adding "point and click" functionality for analyzing data, creating graphs, and creating new variables. **It works best on PC's**; Mac support is limited at best. Excel 2008 is not supported at all.

### TimeTracker *Beta*

The EZAnalyze TimeTracker is a macro-enabled Excel workbook designed to perform note-keeping and time-tracking functions, and generate reports for accountability and improved service to students. **It now works on both Macs and PC's**, except for Excel 2008.

Version: Latest

OS: Win XP / Vista / 7 / 8

Language: English

Cost: Free

Rating: ★★★★★

Available to download on  
our website.

News

**-March 2012** - Version 1.2 of the TimeTracker is now available!

**-Excel 2011** - EZAnalyze can be installed on Excel 2011 - HOWEVER, it must be installed manually, and it is not very visually appealing. Some functions, unfortunately, do not work.

**-Excel 2010** - EZAnalyze works with Excel 2010, except for the Regression function. If you have difficulty installing, follow the manual installation instructions. If you have other problems, please let me know by visiting the [contact page](#).

**-Rex Filer's Electronic Log** can still be downloaded from [here](#).

**-Get Support or Contribute** . Visit the [EZAnalyze Groupsite](#) to get help or contribute!
